

Division of Dermatology: Meet Our Physicians

Alan N. Moshell, MD

Chief, Division of Dermatology, Department of Medicine

Dr Alan N Moshell is a board certified dermatologist and an internationally recognized expert in occupational skin diseases, contact dermatitis and photosensitivity diseases. He is the chief of Dermatology at Georgetown University Hospital, and the Director of the residency training programs in dermatology at Georgetown University Hospital and Washington Hospital Center.

Dr Moshell was graduated from New York University School of Medicine in 1971, and completed his internship, dermatology residency and an NIH traineeship at New York University Medical Center, Department of Dermatology Skin and Cancer Unit, completing his training in 1975. He then spent 2 years on active duty in the Navy stationed at Bethesda Naval Medical Center from 1975 to 1977. He joined the Dermatology Branch of the National Cancer Institute, NIH as an expert in 1977. In 1980, he joined the National Institute for Occupational Safety and Health as chief clinical dermatologist and Chief of the Grants Administration and Review Branch. Dr. Moshell then rejoined the NIH and served for 25 years as the program director and chief of the Skin Diseases Branch of the National Institute of Arthritis, Musculoskeletal and Skin Diseases. He retired from the federal government in 2006 to become the dermatology residency director at Washington Hospital Center. He organized the merger of that program with the Georgetown University Hospital Dermatology training program, becoming director of the combined Georgetown University Hospital-Washington Hospital Center program in 2007. In 2008, Dr. Moshell became interim Chief of Dermatology at Georgetown University Hospital.

Dr Moshell has lectured internationally, authored numerous publications in peer-reviewed journals, and has edited one textbook. His research and articles have been published in the *New England Journal of Medicine*, *Lancet*, *Journal of Clinical Investigation*, *Journal of the American Academy of Dermatology*, *Archives of Dermatology*, *Journal of Investigative Dermatology*, and countless others. He has received 2 NIH Director's awards and numerous other NIH awards (?for clinical and/or basic science research funding?), and numerous awards from national dermatologic professional and voluntary organizations. Dr Moshell has chaired an Institutional Review Board and a Data Safety and Monitoring Board for clinical research organizations, and served on the review board for several dermatologic disease registries. He has been a grant

reviewer for the National Institutes of Health and a contract reviewer for the Department of Defense.

Dr Moshell has been elected president of the DC Dermatological Society, vice president of the Society for Investigative Dermatology, and is currently a member of the board of directors of the Association of Professors of Dermatology. He was a founding member of the American Society for Photobiology and the American Contact Dermatitis Society. He is a fellow of the American Academy of Dermatology, and is serving on several committees for that organization. He is a member of the American Dermatologic Association, Society for Investigative Dermatology, Association of Professors of Dermatology, American Contact Dermatitis Society, American Society for Photobiology, Dermatology Foundation, and DC Dermatological Society.

Jennifer MacGregor, MD

Assistant Professor of Dermatology, Director of Laser, Cosmetic, and Dermatologic Surgery

Jennifer L. MacGregor, M.D. is a Board Certified dermatologist with fellowship training in cutaneous laser and dermatologic surgery.

Dr. MacGregor is an *Alpha Omega Alpha* national medical honor society graduate of Georgetown University School of Medicine. She completed her dermatology residency at Columbia University Medical Center in New York City, followed by a prestigious 1-year laser, cosmetic and dermatologic surgery fellowship in Boston where she was trained by dermatologic surgeons from Harvard, Yale, and Boston University, all internationally recognized for their contributions to the field of laser and procedural dermatology.

Dr. MacGregor has lectured nationwide and authored over 20 peer-reviewed journal articles and textbook chapters. Amongst others, her work has been published in *Dermatologic Surgery*, *The Journal of the American Academy of Dermatology*, and *Archives of Dermatology*. The topics of her textbook chapters have included the effects of topical retinoids on the skin, the treatment of cellulite, body contouring, laser for resurfacing and the management of scars with laser. She is a contributing editor for *Dermatologic Surgery*, and has participated as an investigator on numerous research studies that have contributed to the development and clinical evaluation of new, cutting-edge products and devices.

Dr. MacGregor has training and expertise in all aspects of general dermatologic surgery, laser procedures (including laser resurfacing, treatment of vascular lesions, pigmented lesions, tattoos, and scars), chemical peels, skin tightening, sclerotherapy for leg veins, and novel treatments for body contouring and cellulite. Her philosophy regarding cosmetic procedures is that her patients should look natural and healthy, but never as if they have had ‘work done’. She also has expertise in the treatment of vascular birthmarks in infants and children and a special interest in

treating patients with traumatic scars, burn scars, or acne scarring.

She has been interviewed for television, radio and print. Her contributions to the field have recently been highlighted in *The Washingtonian* and *New Beauty Magazine*. Her professional affiliations include the American Academy of Dermatology, the American Society for Dermatologic Surgery, the American Society for Laser Medicine and Surgery, Women's Dermatologic Society and the American Medical Association.

Lynn McKinley-Grant, MD, FAAD

Clinical Associate Professor, Department of Dermatology

Christine DeWitt, MD

Assistant Professor of Dermatology

Scott Norton, MD, MPH

Scott A. Norton, M.D., M.P.H., M.Sc., joined Georgetown University Hospital in 2010 after a distinguished 25-year career as a physician in the United States Army. Dr Norton was Chief of Dermatology at Walter Reed Army Medical Center for many years and retired as a Colonel. He maintains clinical privileges at Georgetown University Hospital, the National Institutes of Health, and Walter Reed National Military Medical Center. Dr. Norton currently serves as acting Chief of Pediatric Dermatology at Children's National Medical Center in Washington, D.C.

Dr Norton earned his undergraduate degree at Tulane University in New Orleans, where he graduated Phi Beta Kappa. After college, he received a Fulbright Scholarship to New Zealand to conduct field research in plant-animal co-evolution, earning a Master's of Science with Distinctive Honors from Victoria University in Wellington, New Zealand. He then served as an active duty Army officer at Fort Benning, GA, for two years before deciding to embark on a medical career. He then returned to Tulane University for degrees in medicine and in public health, where he was selected for Alpha Omega Alpha and Delta Omega, the medical and public health equivalents of Phi Beta Kappa.

In addition to General Dermatology (adult and pediatric), Dr Norton's interests are in

Tropical Medicine, Infectious Diseases, and Global Health. While with the federal government, his overseas medical experiences included duties in Zambia, Egypt, Ghana, Mauritania, Senegal, Haiti, Jamaica, Guyana, Bolivia, Peru, Marshall Islands, Fiji, Palau, Federated States of Micronesia, Thailand and the Philippines, where he worked on clinical, educational, and public health projects, including many humanitarian assistance and disaster relief operations. He has additional certification in Tropical Medicine and Traveler's Health from the American Society of Tropical Medicine & Hygiene and serves as consultant in Dermatology and in Tropical Medicine to the State Department, the Peace Corps, and the CDC. Other academic interests include ethnobotany (traditional uses of plants) and medical anthropology.

Dr Norton has more than 70 indexed publications, including papers in many journals outside the dermatology literature, such as *New England Journal of Medicine*, *JAMA*, *Lancet*, *British Medical Journal*, *Clinical Infectious Diseases*, *Emerging Infectious Diseases*, *Vaccine*, and *MMWR*. He is a former Assistant Editor of the *Journal of the American Academy of Dermatology* and remains a reviewer for that and many other journals. He lives in Chevy Chase, MD, with his wife and two teenage sons.

Elizabeth M. Dugan, MD

Director, Dermatopathology

Associate Professor of Dermatology and Medicine

Dr. Elizabeth M. Dugan is board certified in Dermatology, Dermatopathology and Dermatoimmunology. After receiving her Doctor of Medicine degree from the University of Southern California, Keck School of Medicine in Los Angeles, California, Dr. Dugan completed a Dermatology residency and a fellowship in Dermatoimmunology at the Johns Hopkins Hospital in Baltimore, Maryland. She then completed a Medical Staff fellowship at the Dermatology Branch of the National Institutes of Health, and a Dermatopathology fellowship in the Departments of Dermatology and Pathology at the George Washington University Hospital.

Dr. Dugan is the past Director of Dermatopathology and Dermatoimmunology at the Washington Hospital Center, where she was on the full-time teaching staff for eleven years. She has served as the Consultant Dermatopathologist for the Melanoma Center at the Washington Cancer Institute since its inception in 1996. In addition to pigmented lesions, her areas of special interest include vasculitis, autoimmune blistering and collagen vascular diseases, and cutaneous lymphomas. In addition to her work in dermatopathology, Dr. Dugan remains active in clinical dermatology.

Purnima Sau, MD

Senior Consultant Dermatopathologist

Dr. Purnima Sau received her medical degree from Calcutta National Medical Institute in Calcutta, India. After training in Pathology, she completed a Dermatopathology Fellowship at the Armed Forces Institute of Pathology in Washington, DC where she served as Consultant Dermatopathologist from 1979 to 1984. She subsequently trained in Dermatology at Walter Reed Army Medical Center in Washington, D.C. where she was Chief Dermatopathologist and Chief of Dermatology from 1988 to 1998. Dr. Sau has authored over 50 publications, including Dermatopathology Interactive Atlas, which she co-wrote with Drs. Jag Bhawan and H. Randolph Byers.

Dr. Sau is an acting Associate Professor of Dermatology at the Uniformed Services University of the Health Sciences in Bethesda, Maryland and a Professor of Dermatology at Howard University. She continues to serve as consultant Dermatologist and Dermatopathologist at Walter Reed Army Medical Center, and is also a consulting Dermatopathologist for the Dermatology Branch of the National Institutes of Health.

Meaghan Canton-Feder, NP

Nurse Practitioner

Meaghan Canton Feder is a Nurse Practitioner specializing in medical and cosmetic dermatology. She earned her undergraduate degree in nursing from University of Pennsylvania and her master's degree from Georgetown University. She has been part of the Georgetown University Hospital family for the past six years. She worked in the Post Anesthesia Care Unit for four years and has worked in Georgetown's Division of Dermatology since 2007. Her areas of interest include general dermatology, skin cancer, acne, rosacea, Botox, and laser treatments.

As a Nurse Practitioner, Meaghan Feder is able to diagnose patient's problems and prescribe medications. She has longer appointments in order to spend more quality time discussing problems and treatment options with her patients.

Meaghan is a native of the Washington, DC area and currently lives in Georgetown with her husband.
